

Figure 2-5.
Vegetation Types - West
 South Fork American River
 Watershed Plan

¹ GIS Data from California Department of Forestry and Fire Protection (CalFire), Fire and Resource Assessment Program (FRAP) 2005. Produced in Cooperation w/ USFS Region 5 Remote Sensing Lab. CalVEG classes are mapped at a minimum of 2.5 acres.
 Map Projection: NAD 1983, California State Plane Zone 2

Map Features

- Communities
- Rural Centers
- SFAR Watershed
- Wilderness Areas
- USFS
- Old Growth Forest
- Lakes
- Freeway / Interstate
- Highway
- Major Road

Altered Landscapes

- Agriculture
- Urban
- Barren Land**
- Barren
- Herbaceous**
- Annual grass and forbes
- Wet meadows
- Perennial grasses and forbes
- Introduced species

CALVEG ZONE 3 VEGETATION TYPES

Shrub / Scrub

- Alpine shrub
- Basin sagebrush
- Chaparral
- Montane chaparral
- Scrub oak
- Riparian shrub
- Introduced species

Hardwood

- Riparian hardwood
- Mixed hardwood
- Canyon live oak
- Blue oak
- Black oak
- Valley oak
- Bigleaf maple
- Interior live oak
- Montane hardwood
- Introduced species

Mixed Conifer-Hardwood

- Douglas fir
- Mixed - other
- Mixed fir / pine
- Knobcone pine
- Foothill pine
- Ponderosa pine

Conifer

- Douglas fir
- Mixed conifer
- Jeffrey pine
- Knobcone pine
- Lodgepole pine
- Foothill pine
- Ponderosa pine
- Red fir
- Subalpine mixed conifer
- White fir
- Introduced species
